The Taj Mahal is an ivory -White marble mausoleum on the right bank of the river Yamuna in the Indian city of Agra. It was commissioned in 1632 by the Mughal emperor Shah Jahan to house the tomb of his favorite wife, Mumtaz Mahal; it also houses the tomb of Shah Jahan himself. It is one of the finest examples of Mughal architecture. It took about 22 years and 20,000 workers to construct the complex, which also includes an immense garden with a reflecting pool. The Taj Mahal was designated as a UNESCO World Heritage site in 1983. It was the world's most liked site by tourists. It approximately attracts 7 to 8 million people yearly.
